

How to Exit a Meeting **EXIT**

If you are in a meeting and would like to exit it, simply click the word “Exit” in the upper right side of the application.

You will no longer be a participant in the meeting. You can rejoin the same meeting if you would like by going to Meeting – Join Meeting...– Join Last Meeting

If you created the meeting and would like to remove an attendee, refer to the “How to Manage a Meeting and Attendees” guide on the Support page (<http://support.iocom.com/home>).
